

Short Bio and contact details

Academic title: Prof.
Full name: Luc J.C. van Loon

Institute: Department of Human Biology
Maastricht University Medical Centre

Postal address: PO Box 616
6200 MD Maastricht
The Netherlands

Visiting address: Universiteitssingel 50
6229 ER Maastricht
The Netherlands

Email: L.vanLoon@maastrichtuniversity.nl

Website: www.m3-research.nl
www.maastrichtuniversity.nl/ljc-van-loon

Number of publications: >500
Timeline publications: 1999 to present
H-index: 91 (Web of Science)
Research areas: muscle, metabolism, exercise, nutrition, aging

Short description of academic profile

Professor van Loon was appointed Professor of Nutrition and Exercise at Maastricht University in The Netherlands in 2010. Luc has an international research standing in the area of skeletal muscle metabolism, has published well over 500 peer-reviewed articles (more than 29.000 citations) achieving an H-index of 91. He was in the top 1% of cross-field (nutrition and physiology) highly-cited scholars globally for 2023. Current research in his laboratory focuses on the skeletal muscle adaptive response to physical (in)activity, and the impact of nutritional and pharmacological interventions to modulate metabolism in both health and disease. The latter are investigated on a whole-body, tissue, and cellular level, with skeletal muscle as the main tissue of interest. He is active in various media to translate research findings to the general public, highlighting the impact of nutrition and physical activity to support performance and health.
