## **Appendix - additional information about this document**

### ***First study programme UCM alumni attended after graduating from UCM based on the UCM Alumni Survey 2017 conducted by the Research Centre for Education and the Labour Market.***

451 UCM alumni filled out information about their first degree after graduating UCM. 431 UCM alumni filled out the name of their first study programme completed after UCM. The name of the university or title obtained is often missing. If data was missing, it is left blank in the tables above. While analysing the data set, it seems that students did not stay in Maastricht for their next study programme after graduating UCM. However, many programmes listed without mentioning the name of an institution, are offered by Maastricht University such as Public Policy & Human Development, European Studies of Science and Technology, European Public Affairs and Cultures of Arts, Science and Technology Research to name a few.
