

Addendum EER FSE master programmes 2022-2023

In light of the aftermath of the COVID-19 impact, the Executive Board decided that the soft-cut regulation will be extended for the academic year 2022-2023.

I. Soft-cut-regulation

Temporary derogatory condition for enrolment in the (pre) master 2022-2023

1. In accordance with Article 7.37c and in derogation from Articles 2.1, 2.2, 2.2a, 2.3, 2.6 and 2.7 of the EER the programme may, at its request, register for a 'registration without completed prior education' ('zachte knip-regulation') for the programme, if:
 - a. the candidate has obtained at least 80% of the credits to be obtained from the last year of the previous education (bachelor or bridging programme (pre-master)) (e.g. max. 12 ECTS from year 3 of the bachelor may be missing, year 1 and year 2 have been completed in full) OR has obtained all credits except the bachelor thesis.
 - b. the candidate wants to enrol from a bridging minor ("schakelprogramma"), at least the bridging component offered by FSE-DACS has been completed. Subsequently, the programme, considering the 80% standard, assesses whether the student in question can be enrolled on the basis of the prior knowledge obtained in relation to the load of the subsequent programme;
 - c. the candidate has completed the prior education at least one month before the (pre) master's program, but no later than 31 August 2023.
2. This arrangement applies to the academic year 2022-2023 and will expire if the diploma for the previous education (bachelor or bridging programme) is not obtained before 1 September 2023;
3. The period of validity of passed examinations during the 'registration without completed prior education' in 2022-2023 is bound according to Article 5.13 of the EER.
4. The bachelor's thesis has been completed before the master's thesis can be started.
