## General requirements: previous education

The admission requirements for academic year 2024/25 for the master's programme International and European Tax Law - Specialisation Tax and Technology depend on your previous education. Please check below which requirements apply to you.

## Graduates from selected relevant university bachelor's programmes

You qualify for admission to the master's programme International and European Tax Law if you have a **Dutch or non-Dutch research university bachelor's degree in Tax Law or Fiscal Economics** (provided that this bachelor's degree includes 12 ECTS of tax law courses, including income and business taxation).

If you have obtained a bachelor's degree in **European Law School at Maastricht University**, you qualify for admission if you have successfully completed the courses "Concepts of Income and Business Taxation" (TAX3009) and "International and European Tax and Customs Law" (TAX3013).

## Graduates from other relevant university bachelor's programmes

If you have **another Dutch or non-Dutch bachelor's degree from a research university** (for example, in economics, business administration or accounting), you qualify for admission to the master's programme in International and European Tax Law in two specific cases:

- if you have successfully passed courses or exams in tax law at a recognised higher education institution

OR

- if you have become a member of a recognised institution of tax professionals, by passing comparable courses or exams

In both of these cases the courses or exams that you took should have offered you the required **fundamental (academic) knowledge in tax law** to build upon during the master's programme. This is generally the case if you have successfully passed courses or exams in tax law, equivalent to **at least 12 credits**. Note: these courses or exams must have included income and business taxation. 12 credits (ECTS) are equivalent to a study load of approximately 336 hours (lectures and self-study). A thesis, essay or internship does not count towards the required tax courses and credits, neither does practical (work) experience.

## Pre-master's programme in (Tax) Law

Do you want to entry the master's programme International and European Tax Law in the 2025-2026 academic year and does your bachelor's degree not qualify you for direct admission? Then you can apply for the pre-master's programme in Law or the Dutch pre-master's programme in Tax Law. These are preparation programmes for students with a university of applied sciences (hbo) or research university bachelor's degree who want to pursue a university master's degree at the UM Faculty of Law but are not eligible for direct admission to our English-taught programmes (pre-master Law) or our Tax Law programmes (pre-master Fiscaal Recht).

## Information regarding *civiel effect* and NOB

In the Netherlands, it is important to distinguish between *civiel effect*, that is, whether you should be able to gain admission to the bar in the Netherlands, and professional organisations like the Nederlandse Orde van Belastingadviseurs (NOB), that is, whether you should be able to join the Dutch Association of Tax Advisers or a similar organisation.

To become a member of the Nederlandse Orde van Belastingadviseurs (NOB), you must have obtained at least 52 credits for courses relating to tax law, out of which at least 30 credits must have been obtained during your master's studies. In addition to this, you must have obtained at least 9 credits for business economics courses and 9 credits for private law courses. You can also consult [the website of the NOB](#). Our master's programme in International and European Tax Law (all specialisations) is designed in a way that you will be able to fulfill these requirements if you have obtained a bachelor degree in Fiscaal Recht or Fiscal Economics at Maastricht University.

Is *civiel effect* and/or NOB membership important for you? If yes, please be advised that even if you qualify for direct admission to the master's programme in International and European Tax Law, this does not mean that you qualify for *civiel effect* and/or NOB after graduating from the programme. Rather, whether you qualify for one or both of these depends on your previous

education. You can find some combinations in the overview below (please note that this overview focuses on the programmes offered at Maastricht University):

	<b><i>civiel effect</i> (the graduate should be able to gain admission to the bar in the Netherlands)</b>	<b>NOB (the graduate should be able to join the Dutch Association of Tax Advisers)</b>
