Bachelor Regenerative Medicine and Technology

Combine science and engineering and apply it in medical applications. This programme teaches you to develop methods that trigger the body to repair or renew itself. You gain all the multidisciplinary knowledge and skills needed to design and market innovative solutions in healthcare.

Admission requirements

On this page, you will find important details of the application process (such as deadlines, admission requirements, required documents and application assessment) for the bachelor's programme in Regenerative Medicine and Technology for the *academic year 2026-2027*. Questions about admission? Contact us via study@maastrichtuniversity.nl

Application deadlines

The bachelor's programme in Regenerative Medicine and Technology starts in September.

The deadlines below are applicable for applying for a start in September 2026.

Note: If you are viewing this webpage on your phone, we recommend using landscape mode.

Date	What you need to know about this date
As soon as possible after 1 October 2025	Apply via Studielink* (open for applications for the academic year 2026-2027 from 1 October)
1 April 2026, 23:59 CET**	Deadline for completing the entire application process if you have a non-EU/EEA nationality (in most cases, you will need a visa and/or residence permit)
1 May 2026, 16:00 CET**	Deadline for applying for a sufficiency check (if applicable) if you have a non-EU/EEA nationality and need a visa or residence permit. A number of applicants can apply for a 'sufficiency check' if the knowledge in a specific subject needs to be assessed. Applicants notified of this in the MyApplication portal will have the opportunity to upload a syllabus in the MyApplication portal before the deadline of 1 May. Requests submitted after this date will not be taken into consideration.
1 July 2026, 23:59 CET**	Deadline for completing the entire application process if you have an EU/EEA or Swiss nationality
1 June 2026, 16:00 CET**	Deadline for applying for sufficiency check (if applicable) if you have an EU/EEA or Swiss nationality A number of applicants can apply for a 'sufficiency check' if the knowledge in a specific subject needs to be assessed. Applicants notified of this in the MyApplication portal will

Date	What you need to know about this date
	have the opportunity to upload a syllabus in the MyApplication portal before the deadline of 1 June. Requests submitted after this date will not be taken into consideration.
1 August 2026	Strongly recommended deadline for paying the tuition fee
31 August 2026, 23:59 CET**	Deadline for submitting proof that you meet the statutory (further) previous education requirements 2026-2027
31 August 2026, 23:59 CET**	Deadline for completing all tasks in the MyApplication portal*** If you need a visa and/or residence permit, you must complete most tasks by an earlier date.

**Studielink is the national registration system for higher education,*

***Be aware of the time zone in the Netherlands (CET) and check possible time difference!*

****The MyApplication portal is Maastricht University's application and enrolment platform.*

Visa/residence permit for study

Are you a non-EU/EEA national requiring a visa/residence permit for study? Click here for — more information

Please note that Maastricht University can **only** formally apply for your [visa/residence permit](#) if you have met all admission and enrolment requirements.

This means you have to have completed all admission and enrolment tasks in the MyApplication portal (except the 'visa/residence permit'-task and the 'send certified copy of diploma'-task) before we can send your application to the IND (Dutch Immigration and Naturalization Service).

We have to send the application to the IND before 1 July if you are starting your studies in September. Please note: a few pre-master and master programmes offer a start in February. If your study programme offers a start in February and you want to start your studies in February, we have to send the application to the IND before 1 December. You can find out if your study programme offers a start in February on the admission requirements web page of that programme ([pre-master's](#), [master's](#)).

Therefore, we **strongly recommend** that you reconsider applying for this study programme if you are not sure that you will meet the following requirements before 1 July/1 December (if applicable in your situation):

- ⦿ Having remedied all subject and/or language deficiencies (if applicable)
 - ⦿ Having qualified for admission to your study programme, including being selected ([if applicable to your study programme](#)) AND
 - ⦿ Having paid the tuition fee for your study programme
-

General requirements: previous education

The admission requirements for academic year 2026-2027 for the bachelor's programme in Regenerative Medicine and Technology depend on your previous education. Please check below which requirements apply to you.

Applicants with a Dutch diploma

If you possess one of the diplomas stated below then, in principle, you qualify for admission.

- ⦿ A new-style VWO diploma with the **profile Natuur en Gezondheid with profile subject Physics and Mathematics B**
- ⦿ A new-style VWO diploma with the **profile Natuur en Techniek with profile subject Biology**
- ⦿ An OU (Open University) propaedeutic diploma, HBO propaedeutic diploma, HBO degree diploma, or university degree diploma. Sufficient knowledge at VWO level of the

subjects Physics, Chemistry, Biology and Mathematics B is required.

An old-style VWO diploma no longer gives the right to admission.

Applicants with a non-Dutch diploma —

If you have a non-Dutch diploma that is equivalent to the Dutch VWO diploma, you qualify - in principle - for admission to this programme. Check if this applies to your diploma.

➤ [List of diplomas equivalent to the Dutch VWO diploma 2026-2027](#)

Please note: if your diploma is not on this list, UM must first assess your diploma on an individual basis to see if you qualify for admission.

Your previous education must not only be equivalent to the Dutch VWO level, but must also contain specific subjects. The subjects Mathematics B, Physics, Chemistry and Biology need to have been included at VWO exam level in your previous education.

Additional subject requirements for applicants with a non-Dutch diploma

To qualify for admission to the bachelor's programme in Regenerative Medicine and Technology, you need to have the following subjects in your previous education: Mathematics B, Physics, Chemistry and Biology with a duration and depth equivalent to the Dutch VWO. The following diplomas satisfy those requirements:

➤ [Additional subject requirement pertaining to non-Dutch entry qualifications 2026-2027](#)

If your diploma or degree differs from those listed above, UM will assess whether you can demonstrate sufficient knowledge of the four compulsory subjects (Mathematics B, Chemistry, Physics, and Biology) and therefore qualify for an exemption (*sufficiëntieverklaring*) for these subjects on an individual basis. This assessment is based on the attainment aims for final

examination in Dutch secondary education (VWO) in the relevant subject and the national agreements made within the Central Commissions Pre-examination (in Dutch: CCVX) and Boswell-Bèta. The assessment takes extra time, so be sure to register as early as possible.

Please note: taking an exam in a particular subject certainly does not automatically mean that you meet the further previous education requirements. There are strict requirements regarding the number of hours, the content and depth of the material covered and the exams taken.

Applicants without the appropriate diploma or with missing courses

If you do not have the necessary diplomas, you may still be eligible for admission with an entrance exam (the Colloquium Doctum exam). **For this, you must be 21 years of age or older.**

The Faculty of Health, Medicine and Life Sciences (FHML) of the UM does not organise a Colloquium Doctum exam. You must demonstrate with certificates that you have mastered the required subjects at **Dutch VWO-level new style**. These are: English, Biology, Chemistry, Mathematics B and Physics.

You must arrange obtaining the certificates yourself.

To find out whether you meet the English language requirements, check out '[Additional requirements](#)' [further down this page](#)

- ⦿ You can take courses in Biology, Chemistry, Mathematics B and Physics at [Boswell-Bèta](#)
- ⦿ For the Biology, Chemistry, Mathematics B and Physics exams, you can go to [Boswell-Bèta](#) or [Central Committees for Entrance Exams \(CCVX\)](#)
- ⦿ For the English subject, you can go to [Babel](#) or the [UM Language Centre](#)

Once you pass the exams, you must send the certificates to UM by postal mail or to a designated email address. You will find more information in the MyApplication portal under 'Certified copy diploma'.

Eliminate missing subjects (deficiencies)

If you already have or will be awarded a Dutch secondary education (VWO new style) or equivalent diploma, but you do not (completely) satisfy the additional requirements, you must take (an) additional examination(s) to qualify for admission to the bachelor's programme in Regenerative Medicine and Technology. These examinations can be conducted both in Dutch and English at [Centrale Commissies Voortentamen \(CCVX\)](#) or [Boswell-Bèta](#).

Please note: you have to arrange these examinations yourself. In specific cases, Boswell-Bèta offers the possibility for foreign students to take these examinations online. You have to contact Boswell-Bèta personally to request an online examination.

German students can also opt to complete the so-called Vorseminster at the [Rheinische Bildungszentrum](#) in Cologne for deficiencies in Biology, Physics or Chemistry.

Bear in mind that institutes such as CCVX and Boswell-Bèta have a maximum of 20 working days to make the result known.

Please note: proof of an extra examination in a certain subject at a different institute than the ones mentioned above (CCVX/Boswell-Bèta/Rheinische Bildungszentrum) does not automatically mean that you satisfy the requirements for that subject. The level of the extra examination will need to be assessed on an individual basis. Strict requirements concerning number of study hours, content, difficulty of the material dealt with, and examinations completed apply here. In case of doubt, we will require you to demonstrate sufficient knowledge and skills through an additional satisfactory examination at CCVX or Boswell-Bèta. (or Rheinische Bildungszentrum for German applicants).

Uploading certificates in MyApplication portal

Once you have successfully completed your additional examinations, you need to upload the certificates in the MyApplication portal.

Respect the deadline (see table [‘Application deadlines’](#)).

Applying for a sufficiency check

In the evaluation of your diploma / grades transcript, it is possible that it is not clear whether you meet the subject requirements in a specific subject. Because education programmes can vary widely, we then need detailed information about the curriculum of the specific subject you have taken in order to assess your knowledge level. The knowledge requirements are based on the attainment levels for the final examination in Dutch pre-university education (VWO) and the national agreements made within the Dutch Central Committees for Entrance Exams (CCVX).

If this is applicable to you, we offer you the possibility to fill in a syllabus to have your knowledge of the specific subject assessed by the Colloquium Doctum committee. Guidelines and requirements of the syllabus can then be found in the MyApplication portal.

Respect the deadline (see table [‘Application deadlines’](#)).

Additional requirements

Language requirements for English-language programmes

As English is the language of instruction in this study programme, it is essential that your English language skills are good enough for you to undertake intensive and challenging academic courses that are taught and examined in English.

Answer the questions below to find out if you meet the language requirements.

Do you hold a Dutch pre-university education (VWO) diploma?

Yes

No

Applicants whose diploma is based on a non-EU-EEA curriculum (handling fee)

Applicants for this study programme whose diploma is based on a non-EU/EEA curriculum are required to pay a handling fee. This applies even if the educational institution is located within the EU/EEA, as the fee is based on the curriculum, not the location of the institution. More information on this handling fee and how to arrange this payment can be found on the [handling fee page](#).

Documents required for application process

During the application process for this study programme, you will need to complete a number of tasks for which you will often have to upload documents in the MyApplication portal. The list below gives you an insight into what documents you will (and might) need to prepare.

Disclaimer

- ⦿ *Maastricht University will keep your personal information confidential.*
- ⦿ *The information provided is stored in a secure environment and treated according to the European General Data Protection Regulation (GDPR).*
- ⦿ *Maastricht University will not share your information with third parties without your prior explicit permission.*

Required documents for all applicants to this study programme

⦿ **A recent portrait picture**

This picture must satisfy certain requirements. You can find these requirements in the task description 'Upload portrait

picture' in the MyApplication portal

- ⦿ **A copy of your valid passport or your EU/EEA identity card**
Make a copy of the page with your personal details. Save this copy as 'passport copy' and not as 'passport picture'.
 - ⦿ **A copy of your most recent grades transcript AND/OR a copy of your diploma if you have already obtained it**
-

Documents that might be required depending _ on your (academic) background

- ⦿ Check if you need to pay a **handling fee** (administration costs) and arrange the payment.
In principle, this only applies if you received your previous education in a non-European country, but please check for exemptions to this rule. If applicable: upload the exemption form 'Handling fee' in the MyApplication portal if you think that you are eligible for exemption.
- ⦿ Check if your **knowledge of Mathematics B** is sufficient and provide proof
- ⦿ Check if your **knowledge of Biology** is sufficient and provide proof
- ⦿ Check if your **knowledge of Physics** is sufficient and provide proof
- ⦿ Check if your **knowledge of Chemistry** is sufficient and provide proof
- ⦿ Check if your **language proficiency in English** is sufficient
Answer the questions concerning language requirements under 'Language requirements for English-language programmes' on this webpage to find out if you need to provide additional documentation. The outcome of your answers will indicate which document(s) you can use to prove your proficiency.
- ⦿ **Permission for document verification form**
If your previous education is not verified by DUO (Dienst Uitvoering Onderwijs, the Dutch government agency

responsible for education-related matters), you will need to upload the form 'Permission for document verification' in the MyApplication portal. This form allows Maastricht University to verify your diploma, grades transcript or other required documents directly with the issuing institution or relevant qualification registry.

How do we assess your application?

When you want to apply or are applying to this study programme, it is useful to know how we assess your application. You can find more information about this in this section.

Maastricht University (UM) will assess whether your previous education makes that you qualify for admission.

Additional documents may be required to assess your previous education. If so, you will receive a request by email, so please keep an eye on your inbox.

You will receive a message once UM has made the decision.

Matching Procedure

Maastricht University finds it important that you choose a study programme and learning environment which suits you well and in which you can be successful. This is why we offer you several opportunities to explore whether the programme matches your background and interest (for example Open Days and Experience Days). In addition, you may pose questions to evaluate your match with the programme and/or arrange a meeting with one of our study advisers by sending an email to: studiekeuzecheck@maastrichtuniversity.nl

Privacy statement Matching Procedure

[Read more about the privacy statement for the Matching Procedure](#)

Study advice at end of bachelor year 1

At the end of year 1 of the study programme, every student receives advice on whether or not to continue their study. This advice is not binding. However, students must meet predetermined requirements documented in the [Education and Examination Regulations \(EER\) of the study programme](#).
