- THEMIS students have to take 30 credits, so they will have to enroll in five courses, two in one period, three in the other. In specific cases a THEMIS student can be accepted for the second semester. In that case the student has to choose from the English taught master's courses offered for exchange students in periods four and five – see complete list of courses for exchange students.
- Mind that courses may have prerequisites. You can find prerequisites in the course description on the website.
