

Dear prospective student,

The FPN Introduction Days will be held on campus from 29 August-2 September 2022. You'll engage in activities that'll inform you on practical aspects of studying at our faculty. You'll also get the chance to meet your new classmates while you learn to work with the Problem-Based Learning (PBL) system. Coming to Maastricht and exploring the city in the week before the start of the academic year also gives you the opportunity to get to know your new surroundings before the work starts.

Please note that the FPN Introduction Days are a mandatory part of your study programme. You do not need to register for the events, you are already signed up!

### **Before coming to FPN**

The Faculty of Psychology and Neuroscience is part of a lively community. Over the coming weeks we'll keep you updated on all the different aspects of this community. Firstly, we want to introduce you to UMc (UM Community). UMc is a space where everyone at UM is welcome. Their goal is to integrate the diverse community of the UM and give everyone a space to meet interesting people from different faculties and take part in fun events while improving your wellbeing. [Learn more about UMc here](#).

### **How to get in touch**

- If you want to get a glimpse of life on our campus, you can join us on [Instagram](#) and [TikTok](#).
- If you have any specific questions regarding the FPN Introduction Days, please contact [introweek-fpn@maastrichtuniversity.nl](mailto:introweek-fpn@maastrichtuniversity.nl).
- If you have practical questions about your application, or other study-related issues. You can get in touch with the [Student Services Centre \(SSC\)](#).

We look forward to welcoming you to the Introduction Days and we'll talk to you soon about life in Maastricht, outside of our faculty.

Kind regards,  
The FPN Introduction Days team
