

**Programme 3:
Basic and
Translational
Cancer Biology**

Prof. dr. M. Vooijs
(Programme Leader)

Radiotherapy

Pathology

Gynaecology

Genetics & Cell
Biology

Otorhinolaryngology

Departments

Assets

Mouse Clinic
Platform

Primary human cell
culture models

Discovery cancer
resistance mechanisms

Biomarker
identification and
validation

Histopathological tu-
mour classification

Research lines

Tumour Hypoxia &
Microenvironment

Cancer genetics &
tumour phenotype

Molecular
Epigenetics
