

When arriving at [Düsseldorf Flughafen \(Düsseldorf Airport\)](#), the SkyTrain cabin railway connects the terminal building and the railway station at Düsseldorf Airport. There are two stops within the terminal building: ‘Terminal A/B’ and ‘Terminal C’. These stops are signposted. The luggage carts cannot be taken onto the SkyTrain, but enough luggage storage is provided in the SkyTrain cabine. You can buy a ticket at the ticket vending machines that are located at the SkyTrain stations. With some tour operators and airlines, the charge for traveling by SkyTrain is included in the airfare, or they offer discounted tickets. Please contact your travel agent directly for more detailed information.

When the SkyTrain is not in service, a shuttle bus is provided. The terminal bus stop is located on the arrivals level (across from Exit E).

From the railway station at Düsseldorf Airport you can use public transport in order to travel to Maastricht Station. Railway tickets can be bought at the ticket offices or at ticket vending machines at the railway station.

It is possible to [plan your travel](#) in advance. Always check always the updates concerning your travel route.

An example: Düsseldorf Flughafen (Düsseldorf Airport) → Maastricht
