

Summer Course Admissions and Application Procedure

The SHE Summer Course is intended for all involved in academic education in Medicine, Health Sciences and Behavioural Sciences.

'Teach what you preach' is the guiding principle of the Summer Course. Thus, learning will be largely experiential with exercises, simulations, small-group work and demonstrations. Participants are expected to be prepared to engage in active learning.

The working language is English. Given the format of the modules, active mastery of this language is required.

Course fee

More information about the fee can be found on our website. This fee also includes a literature package.

Cancellation policy

If the number of registered participants for a full week is not sufficient, the organisation has the right to cancel the module or course at least 6 weeks prior to the start of the course. If the course is cancelled by SHE, fees that have already been paid will be fully refunded.

If a registered participant wishes to withdraw, cancellation and requests for a refund must be made in writing, addressed to the Summer Course Secretariat, no later than 6 weeks prior to the start of the Summer Course. A € 100 cancellation fee plus bank commission will be deducted from the amount to be refunded. No refund requests will be considered after these 6 weeks prior to the start of the course.
