

Daan Eijwoudt (Dutch)

Alumnus Master European Studies

Corporate and Public Affairs

Triodos Bank, Maastricht, the Netherlands

Year of Graduation: 2014

When I was looking for challenging master's programmes, I realised: what is a better place to study the European Union than at its birthplace Maastricht? I really enjoyed working with people who share a broad interest, in the political domain and beyond. In European Studies you truly develop a multidisciplinary view on world politics. This skill is of great value, as it can be appreciated in different sectors, such as business, government and non-profit.
