

Julian Böcker (German)

Alumnus Master European Studies

Corporate Communications

Duisport, Germany

Year of Graduation: 2006

When I graduated from the European Politics and Administration specialisation, I really wanted to work for one of the European institutions. I first started to look for an internship. I wrote to many of the German members of the European Parliament and Elisabeth Jeggle offered me a six-month internship. After three months her assistant found another job quite unexpectedly and I was asked to take over his duties as a trainee.
