Admission & registration

[Health Education and Promotion](#)

Do you want to apply for this study programme? Make sure that you first carefully read through the programme's Admission requirements-page to see if you (can) meet the requirements.

Ready to apply? The application and enrolment process consists of three phases. More information on each of these phases is provided below. You will be referred to the Admission requirements-page, and other relevant information, where appropriate. Carefully read through the information provided and make sure to complete all tasks as soon as possible (and definitely before the indicated deadlines).

You can find an overview of important deadlines on the Admission requirements-page of this programme (see the dark-blue menu on the left-hand side of this page).

1. Phase 1: Studielink application

Let us know you want to apply for this study programme

To start the application process for this study programme, you first need to apply via Studielink. Studielink is the Dutch central organisation that keeps track of applications and enrolments at institutions of higher education in the Netherlands. In Studielink, you can apply by indicating which study programme at Maastricht University (UM) you would like to apply for, whether you'd like to start the programme in September or February (if the latter is an option), what previous education you followed, and you might need to provide a number of other details.

Studielink offers two methods of signing in: with or without using DigiD:

- If you live in a Dutch municipality, you can only register using your DigiD. If you live in a Dutch municipality, but do not yet have a DigiD yet, you will need to request one ([Apply for a DigiD](#)).
- If you do not (yet) live in the Netherlands, you can register by creating a Studielink account (without DigiD). As your personal details will not have been verified through DigiD, Maastricht University (UM) will check your personal details.

[Apply via Studielink](#)

Please note

- You have to select your 'starting moment' in Studielink. Please make sure to select the right month and year in the pulldown-menu, so that you are applying for a start of the study programme in next academic year.
- You can find an overview of important deadlines (including the deadline for completing your application process) on the Admission requirements page of the study programme.
- You will receive an email from UM within 24 hours of having applied in Studielink. This email contains your personal UM student number and a password. You can use these login details to access the [MyUM portal](#), the online environment in which you can upload the documents required for your application.

2. Phase 2: Admission

Allow UM to assess if you meet the admission requirements

To allow UM to assess whether you can be admitted to the programme of your choice, you need to upload several documents, and in some cases complete one or more other tasks. An overview of what you need to do (including a list of documents) is provided on the webpage 'Admission requirements' of the programme you've applied for. You can upload all of your documents in the [MyUM portal](#). Make sure you stay on top of your application. This means that you should upload documents as soon as you have finalised them and/or have them in your possession. That way, we can let you know if the documents you provided are correct, or if further action on your part is required, as early on as possible.

Only applications that have been completed before the indicated deadline will be presented to the Board of Admissions.

Correspondence about your application

From now on, you will receive any important information and calls to action from Maastricht University regarding your application by email, on the email address you provided to Studielink.

3. Phase 3: Enrolment

Arrange the practical matters required to start your studies at UM

After you have registered in Studielink, you will receive an email from UM within 24 hours. This email contains your personal student number and a password. You can use this information to access [the MyUM portal](#), the intranet of UM.

In order to complete your registration, you need to upload several documents via MyUM as soon as possible, at least before the application deadline.

Please note: If you accidentally upload a wrong document in the MyUM portal, you can no longer remove it from your digital file. However, you can still upload the right document, but this does not replace the incorrect one. UM judges which documents are right.

Required documents:

For an overview of required documents click on “Admission requirements” in the dark blue menu on the left side of this page and select the degree that applies to you.

Questions about admission and registration?

Then contact the faculty of this master's programme via the 'Contact & meet us' button on the left.

The information on this page is for students who would like to start in September 2022 (academic year 2022-2023).

Please note

If you have questions about the admission requirements or procedure [contact the faculty](#) of this master's programme.
