General requirements: prior qualifications

The admission requirements for academic year 2022/2023 for the master's programme in Imaging Engineering depend on your prior qualifications. Please check below which requirements apply to you.

Graduates from other relevant bachelor's programmes

You are eligible for admission if you have:

- a bachelor's degree in a relevant field composed of at least 180 ECTS (or equivalent). If you're unsure whether you have a bachelor's degree in a relevant field, please <u>contact our</u> <u>admissions office</u>
- at least 15 ECTS (or equivalent) in mathematics at bachelor's level.

Relevant fields are:

- Engineering (Industrial Engineering, Mechanical Engineering, Engineering Physics)
- Physics or Applied physics
- Chemistry
- Chemical Engineering
- · Biomedical Engineering
- Advanced Technology
- · Business Engineering
- Liberal Arts & Sciences/Technology and Liberal Arts & Sciences
- Biomedical Sciences or Molecular Life Sciences (chemistry emphasis)
- · Other bachelor's programmes in a related discipline

UM graduates applying for a continuing master's programme

You are eligible for admission if you have a degree in BSc Circular Engineering, BSc Business Engineering, BSc Biomedical Sciences (depending on curriculum) or BSc Maastricht Science Programme (depending on curriculum) issued by Maastricht University.

Graduates from equivalent Dutch HBO bachelor's programmes

You are eligible for admission, but you need additional approval from the Board of Admissions. At least 15 ECTS (or equivalent) in mathematics at the bachelor's level is required.

Enrolment before completing prior education (zachte knip regulation)

To help students who have experienced delays in their studies due to COVID-19, we have put the 'zachte knip' regulation in place. This regulation means that you can enrol in your next education programme before you have completed your prior education

Were you, due to the COVID-19 pandemic, unable to earn enough credits in the academic year 2021-22 to complete your prior education on time? In that case, you will be given the opportunity to conditionally start your next education programme at UM under certain terms in academic year 2022-23 (study start in September or February)

When are you eligible for the 'zachte knip'?

Would you like to go from:

• a bachelor's programme to a UM pre-master's or master's programme,

Read here about the conditions for qualifying for the 'zachte knip'.

Exceptions to the rule

As an exception to the standard, some programmes of the Faculty of Science and Engineering apply an adjusted standard to admit students on the basis of the 'zachte knip': As an exception to the 80% standard of this regulation, it may be possible to make use of the zachte knip regulation if you are missing more ECTS. However, only if these belong to your bachelor thesis.

For more information, please contact our admissions office.

How and when do you file an application for the 'zachte knip'?

Beginning of July, we will let you know here how and when to apply for the 'zachte knip' regulation.

Additional requirements

Language requirements for English-language master programmes

As English is the language of instruction in this study programme, it is essential that your English language skills are good enough for you to undertake intensive and challenging academic courses that are taught and examined in English.

Answer the questions below to find out if you meet the language requirements.

Do you hold a bachelor's or master's degree in which English was the sole language of instruction?

YesNoUndo

Prospective students who received their prior education in a non-EU/EEA country (handling fee)

Prospective students applying for this study programme who received their prior education in a non-EU/EEA country will have to pay a handling fee. More information on this handling fee and how to arrange this payment can be found on the Handling fee page.

Documents required for the application process

During the application process for this study programme you will need to complete a number of tasks for which you will often have to upload documents. The list below gives you an insight into what documents you will (and might) need to prepare.

Required documents for all applicants to this study programme

- A recent passport picture*

 The passport picture must satisfy certain requirements.
- A copy of your valid passport or your EU/EEA identity card*

 Make a copy of the page with your personal details. Save this copy as 'passport copy' and not as 'passport picture'.
- A certified copy of your most recent grades transcript of your current bachelor's programme

 A certified copy of your diploma of your current bachelor's programme if you have obtained it

If you have not graduated yet, you can upload your official grades transcript from your bachelor's programme.

Your curriculum vitae

List your education, relevant extracurricular activities and internship/professional experience.

- A motivation letter (max. 500 words)
 - Provide good arguments about why you want to do this master's programme at Maastricht University and why you believe that you can successfully complete the programme.
 - Your letter should answer the following questions:
 - Why did you choose Maastricht University?
 - Why do you want to study MSc Imaging Engineering?
 - What makes you a suitable candidate for this programme?
 - How do your background/strengths/skills relate to the field of Imaging Engineering? To answer this, you can describe any previous experience you might have. For example, describe any courses you might have taken, participation in bachelor or extracurricular research, engineering challenges or projects (if any), experience with English, experience or views on teamwork, etc. It all counts.
 - What do you hope to learn/develop by studying Imaging Engineering at Maastricht University?

*As a UM student it is not necessary to upload these documents in the MyUM portal. Unless your passport is not valid on 1 September 2022; in that case you do have to upload a copy of your passport.

Documents that might be required depending on your (academic) background

- A copy of your language test with sufficient results (if applicable)
- A letter from your home university stating your language of instruction was English (if applicable)

Please note:

- Only complete applications will be reviewed.
- All documents must be in English.

How do we assess your application?

When you want to apply or are applying for this study programme, it is useful to know how we assess your application.

For this master's programme, selection takes place.

The Board of Admissions will review and assess your application. You will be informed whether you are selected for an interview.

The admissions interview

The interview is intended to find out whether there is a match between you and our master's programme. The interview is conducted in English by two members of the Board of Admissions and lasts approximately 30 minutes. The interview takes place via Zoom/Skype.

Preparation

Your application and motivation letter will be the starting point for the interview. You should also inform yourself well about the Imaging Engineering programme. Sources to do so are this website, our information package, or (if possible) an open day you have visited.

After the interview

Within three weeks after the interview, the Board of Admissions will inform you whether you are invited to attend Imaging Engineering or not.

Finalisation of your application at Imaging Engineering

After accepting our invitation to attend the Imaging Engineering master's programme and successfully completing the admissions process, you will receive an email informing you of the steps to take in order to finalise your registration at UM. Furthermore, you will receive a request to pay your tuition fee.

Scholarships

At Maastricht University, scholarships are handled directly by the Scholarship office (not programmes). For information about scholarships available and deadlines, <u>please consult the scholarship website.</u>
