How do we assess your application?

When you want to apply or are applying for this study programme, it is useful to know how we assess your application. You can find more information about this here.

The Board of Admissions (BoA) checks whether your educational background fits with the requirements for the master's programme you applied for. The BoA only assesses complete applications received within the deadline. After receiving your application (and handling fee, if applicable), we will apply the following checks:

- Is the application complete? Are all required documents uploaded?
- If your registration is not complete, you will receive an email with the request to upload the missing documents before the application deadline that applies to you.
- Is the prior education relevant for the master's programme? In case of doubt about the relevance of your prior education, your application will be discussed with the coordinator of the master's programme.
- If applicable, are the academic requirements fulfilled (e.g. sufficient academic skills, GRE required)? If the GRE requirement applies to you, a sufficient GRE score report needs to be uploaded before the application deadline as well.
- Is there proof of sufficient command of English? If an English language test is required, a sufficient score report needs to be uploaded before the application deadline.

If the BoA needs additional information to properly assess your application, we will ask you to upload additional documents.

The assessment by the BoA results in either a conditional admission to the master or in a rejection. You will be informed about this within six weeks.

Please note: if you apply for a UM scholarship as well, your application has to be complete at the time of the scholarship deadline. Check the [scholarship website](#) for exact deadlines and the scholarship application procedure.

Enrolment before completing prior education (zachte knip regulation)

To help students who have experienced delays in their studies due to COVID-19, we have put the 'zachte knip' regulation in place. This regulation means that you can enrol in your next education programme before you have completed your prior education.

Were you, due to the COVID-19 pandemic, unable to earn enough credits in the academic year 2021-22 to complete your prior education on time? In that case, you will be given the opportunity to conditionally start your next education programme at UM under certain terms in academic year 2022-23 (study start in September or February).

When are you eligible for the ‘zachte knip’?

Would you like to go from:

- a bachelor's programme to a UM pre-master's or master's programme,
- a pre-master's or 'schakel' programme to a UM master's programme, or
- an HBO propedeuse (first-year diploma at a university of applied sciences) to a UM bachelor's programme?

Read [here](#) about the conditions for qualifying for the ‘zachte knip’.

Exceptions to the rule

As an exception to the standard, some programmes of the Faculty of Health, Medicine and Life Sciences apply an adjusted standard to admit students on the basis of the ‘zachte knip’:

- B.Sc. Biomedical Sciences
- B.Sc. European Public Health
- B.Sc. Medicine

Students of these study programs receive more detailed information via the StudentPortal.

How do you file an application for the ‘zachte knip’?

Beginning of July, we will let you know [here](#) how and when to apply for the ‘zachte knip’ regulation.
