How do we assess your application?

When you want to apply or are applying to this study programme, it is useful to know how we assess your application. You can find more information about this here.

The Board of Admission evaluates the quality of your application by looking at your GMAT score/Proof of Academic Capabilities (if applicable), IELTS/TOEFL score (if applicable), Grade Point Average, the level of statistics and mathematics and at how well your bachelor's programme corresponds with the master's programme. Besides this, the Board looks at your motivation, relevant work experience, international experience and extra-curricular activities. Based on this information, the Board of Admission will decide whether you can be admitted to the programme or not.

Assessment happens **on a rolling basis**. This means that, once you submit a complete file with all the minimum required scores, it will be presented to the Board of Admission.

We will not wait until the deadline before we present your file to the Board. You will receive a **decision within 2-4 weeks** after completion of your file.
