Education

Master European Health Economics & Management (completed)

09/2017 - 08/2019

Management Center Innsbruck (MCI), Innsbruck

The Master European Health Economics & Management (EU-HEM) is a joint-degree program between four European universities:

- Erasmus Universiteit Rotterdam (Msc)
- Università di Bologna (LM65)
- Universitetet i Oslo (MPhil)
- Management Center Innsbruck (MA)

Projects undertaken:

- Addressing the shortcomings in mental health care for refugees in the Italian refugee camps (Unibo).
- Designing an alliance in the West Bengal region of India to tackle diabetes and involving local NGOs met at the World Health Summit (2018) (MCI).
- Helping with organisational redesign in health care institutions for the implementation of health care innovations (UiO).

The study required:

- Teamwork and close collaboration with students and external stakeholders of different nationalities and backgrounds
- Application of research methods
 - Qualitative interviews
 - Organizational case studies
- Working within different national health systems

Msc thesis topic

The role of managers in addressing challenges and trade-offs that arise out of the implementation process of eHealth

Grade: A

(written at the University of Oxford, the Department of Primary Care Health Sciences)

Bachelor Health Policy & Management (completed)

09/2014 - 08/2017

Erasmus Universiteit Rotterdam (EUR), Rotterdam

Skilled in the consideration and integration of multidisciplinary fields of health care in policy and management issues:

Copenhagen Business School, Copenhagen

- Courses in Business Administration and Innovation in Health Care (08/2016 - 01/2017)

Bsc thesis topic

The alignment between the Participation law and the Social Support law in municipalities of the provinces of Noord-Brabant and Limburg

Gymnasium (completed)

09/2008 - 07/2014

Udens College, Uden

Dutch High School; scientific preparatory education (VWO)

Internships

Research assistant

03/2019 - present

University of Oxford, Oxford

I wrote my master thesis about the role of managers in the implementation process of an electronic transfusion management system. Whilst I was gathering data for my thesis, I was also assisting the research team of the Department of Primary Care Health Sciences of the University of Oxford in a wider programme of research on eHealth.

Relevant research skills

- Make initial contact with organizations for case studies
- Decide research methods in collaboration with other researchers
- Identify relevant participants and respondents
- Take conversation and field notes
- In-depth interviewing
- Use data management and analyzing software (Nvivo)
- Code and analyse interview transcripts, field notes and other data sources
- Development of theory

Apprenticeship

03/2017 - 06/2017

Koninklijke Auris Groep, Rotterdam

- Shadowing and assisting the health director of the Rotterdam region
- Research about the registration process to find the hurdles that cause delay
- Using intraorganizational networks to gather data
- Initiating research about the location of Auris (management group for the Dutch schools for children with hearing impairments) in the care path of the district teams of Rotterdam
- Engaging with governmental bodies
- Collaborating with local health care provider organizations for the youth

Nurse assistant

03/2015 - 04/2015

AAtrium, Veghel

Short internship as part of the Bachelor Health Policy & Management

- Understanding obtained of the concept of being ill and in need of care
- Gained insight in the work of nurses and their work environment

Extracurricular Activities

Track Representative

01/2018 - present

EU-HEM, Innsbruck

I have been elected as co-representative for my specialization track to be the first contact point for the students of my year and prospective EU-HEM students for any inquiries about the study

Board of Education

01/2017 - 07/2017

Erasmus University Rotterdam, Rotterdam

Volunteer Youth Worker

04/2016 - 07/2017

Jeugdhulp Stek, Cappelle aan den IJssel

Social and school support to (children of) immigrants

- Gained insight in the hurdles of advancing through the Dutch education system
- Experienced in teaching
- Understanding obtained in the difficult situation of being an immigrant

Erasmus University Ambassador

09/2015 - 07/2017

Erasmus Universiteit Rotterdam, Rotterdam

- Representing the Erasmus University Rotterdam
- Giving presentations about health care policy and management

Skills software programs

- Skilled in using Nvivo
- Skilled in using Excel
- Moderately skilled in using SPSS
- Moderately skilled in using Stata

Languages

- English: proficient
- Dutch: proficient
- Italian: moderate

Conferences

European Health Forum Gastein (10-2018) as participant

World Health Summit, Berlin (10-2018) as participant

Certificates

**Cambridge Certificate in Advanced English C1 level
(completed)**

2013

Publications in preparation

'Challenges to the spreading and scaling up of innovation: case study of an electronic blood transfusion management system'

University of Oxford

'The role of managers in addressing challenges and trade-offs of the implementation process of eHealth: case study of electronic blood transfusion management system'
